

The 2nd Young Investigators' Meeting

at Ffort Resort, near Kolkata, India

08-13 Feb 2010

This unique meeting from 8th-12th February brings together India's best young life science researchers, along with outstanding post-doctoral fellows from around the world. These young investigators will interact with Indian and international scientists, granting agencies and policy makers. The program will feature scientific talks and posters, with a unique focus on mentorship, as senior scientists share their experiences and lead panel discussions on strategies for scientific success. Through these interactions, we hope young investigators will make new scientific connections, and gain perspectives that will help them excel in the early phase of their careers.

Post-doctoral fellows interested in setting up laboratories in India will attend a satellite meeting between the 12-13th of Feb with chairs of existing and upcoming life science institutions.

E-mail: yim2010@ncbs.res.in

Application deadline: 1st October 2009

Invited Participants

MK Bhan, Secretary of the DBT, India
Alok Bhattacharya, JNU, India
Sumantra Chattarji, NCBS-TIFR, India
Dhrubajyoti Chattopadhyay, Calcutta University, India
Arshad Desai, University of California San Diego, USA
Jyotsna Dhawan, Stem Cell Institute, India
Raghavendra Gadagkar, IISc, India
Sanjeev Galande, NCCS, India
Subhash Lakhota, BHU, India
Partha Majumdar, ISI-Kolkata, India
Satyajit Mayor, NCBS, India
Susan McConnell, Stanford University, USA
Karen Oegema, University of California San Diego, USA
Swati Patankar, IIT-Bombay, India
Rama Ranganathan, UT Southwestern Medical center, USA
K VijayRaghavan, NCBS-TIFR, India
Usha VijayRaghavan, IISc, India
Satyajit Rath, NII, India
Vijayalakshmi Ravindranath, NBRC, India
Imran Siddiqi, CCMB, India
Kai Simons, MPI-CBG, Germany
Mewa Singh, University of Mysore, India
Pradip Sinha, IIT-Kanpur, India

Organizers

Shubha Tole, TIFR, India
Ronald Vale, UCSF, USA
Deepak Barua, IISER-Pune, India
Sandhya Koushika, NCBS-TIFR, India
