

# India Alliance Margdarshi Fellowships

**An opportunity for outstanding established scientists to pursue a large programme of research in India**

To augment its mandate of capacity building India with biomedical scientists, the India Alliance announces the launch of a new Fellowship scheme.

This scheme is for scientists wishing to relocate from their current Institution to any non-profit research Institute in India, to nucleate a cutting edge research centre.

Applicants are expected to have

- at least 12 years of experience running an independent laboratory
- made major contributions in their field of research and
- the vision to nucleate an advanced research programme.

Mobility is mandatory. There must be a strong commitment of support to the applicant from the Institute where they intend to hold the Fellowship.

Fellows would be provided generous personal support and large quantum of flexible research funds for 5 years.

wellcome trust
